

Augsburg University Pre-Observation Planning Guide

Teacher Candidate:

Lesson Topic:

Grade Level:

Date of Lesson:

What will you teach, and why will you teach this content?

- What is the learning objective?
- What do you know about students' prior knowledge of this content?

How will you teach the lesson?

- What strategies have you planned to increase student engagement of the content?
- What resources/materials/technology will be used, and how will it help students to think more deeply about the content?
- How have students' interests, cultural backgrounds, and learning needs informed your planning?

How will you know if students learned what you taught?

- What formative and/or summative assessments are planned?
- How will you check for understanding during the lesson?
- How do you anticipate using the results of the assessments?
