TRIO/SSS Spring Workshop Descriptions

Summer—Not Just a Vacation

Today, the competition for graduate school, medical school, and job placement is fierce. Summer is a time for you to gain experiences that will help you keep up with the competition and further your career aspirations and education. There are options where you can gain important experience and make money at the same time. Come to this workshop to learn more and start thinking of summer as more than a vacation.

What Students Don't Know

The ins and outs of college life can be very confusing at times. It is hard to know what you don't know and not knowing certain things in college can have negative results. We want to save you the headaches and stress. Come and play a fun Jeopardy game to learn the common mistakes and misunderstandings that students have. These mistakes can be very costly and also may result in not graduating on time.

Discover Your Skills and Learn to Promote Them in Your Job or Internship Search

Skills can be hard to identify. You may assume everyone has the same skills as you, so why bother highlighting them? Or you may feel stuck, like you don't have any relevant skills to offer at this point in your academic and professional life. Employers are looking for "qualified" applicants for jobs and internships -what skills are they *really* seeking? How can you pinpoint your own skills & learn how to promote them without bragging or feeling awkward? In this workshop you will learn how to discover your skills and promote them effectively in resumes, interviews, and other situations. All this, plus time for your questions! ** This workshop is co-sponsored by Strommen Career & Internship Services and TRIO/SSS and is **open to all Augsburg students**.*

From Backpack to Briefcase

How to dress for success and deliver a "60 second elevator speech" to effectively network and secure that job, internship or opportunity you are seeking.

MN Private Colleges Job and Internship Fair

This Fair allows employers and candidates to meet at the booths from 9:00 am to 3:00 pm. TRIO/SSS will pay the registration fee for those who register by 2/13 and mention that they are a TRIO/SSS student, attend a preparation session in the Strommen Career and Internship Center, and upload a resume at: https://docs.google.com/a/augsburg.edu/forms/d/1WTMH-_DNLGGD6Zg2q01EUiEGxq6ssC7yU5DFoSN4IA4/viewform

FAFSA Information and Completion

Bring your taxes, W-2's and FAFSA PIN and complete your FAFSA with assistance from TRIO/SSS, College Possible and Student Financial Services staff. ** This workshop is co-sponsored by TRIO/SSS, College Possible and Student Financial Services.*

Life After College

Student Financial Services will share information that will help students with the transition from college student to college graduate. Some of the things that may be covered are repaying loans, costs of life in the "real world," and money management. **Co-sponsored by TRIO/SSS and Student Financial Services.*
