

Faith and the Imagination: The Call to the Arts

Imagine
Believe. Create

Vocatio Chapel Welcomes ...

Katie Lindenfelser '02
Music Therapist

September 12 at 10:20 a.m.
Hoversten Chapel, Foss Center

Katie Lindenfelser completed her music therapy education at Augsburg College in 2002 and her master's in music therapy at the University of Melbourne in 2007. Lindenfelser has worked in the palliative care and hospice field and found that children and families were especially responsive to music therapy and in need of services. She worked at Very Special Kids children's hospice in Melbourne, Australia and returned to Minnesota to research the need for and to establish such a home in Minnesota. Since early 2009, Lindenfelser has been working to build Children's Lighthouse of Minnesota serving children with life-limiting conditions and their families through respite stays for the child and family as well as to provide loving and compassionate care at the end-of-life and beyond.

Students, faculty, and staff interested in attending a luncheon with Katie Lindenfelser should RSVP to Lonna Field at fieldl@augsborg.edu by September 10.
