Fort Collins, Colorado: Viola, Vern and Marjorie, Mary and Russell, Eileen and Wilbur, Lura.

Lives based on worthy goals, hard work, and service to others.

Sterling examples for those who share their values.

“His lord said unto him,
Well done, thou good and faithful servant:
thou hast been faithful over a few things,
I will make thee ruler over many things:
enter thou into the joy of thy lord.”

Mathew 25:21, KJV

It takes a lot of food each year to feed working farm horses: 800 pounds of oats, 1,600 pounds of shelled corn, and 1.8 tons of hay per head. [Source: Historical Statistics of the US. Colonial Times to 1957. p. 262]. At 32 pounds per bushel for oats, 60 pounds per bushel for corn and 65 pounds per bale, this is about 25 bushels of oats, 27 bushels of corn and 25 bales for each working farm horse per year. Alfalfa (3x/yr. 4-5 ton per year). We used pasture land with wild timothy. Get maybe 1 ton per year. Oats yield over 100 bushels in Minn (60 in Iowa). Roughly, 2 acres per horse plus the time to handle the food.

Vern and Wilbur – ideas and organization – pure dynamite!
