

Plan for extra travel time June 8- 14 to accommodate construction delays, detours

Use caution driving, crossing streets on campus

Students, faculty and staff traveling to and from campus June 8- 14 should plan extra time for construction delays and detours. The second phase of construction on Riverside Ave., combined with work on I-94, means the community may encounter multiple detours. Known closures and detours impacting travel to and from campus include:

- **Traveling from Minneapolis, eastbound on I-94, from June 8- 11:** Visitors to campus who travel from the west (Minneapolis) should plan alternate routes because eastbound I-94 will be closed between Hwy 55/Hiawatha and Hwy 280 and from 9 p.m., Friday, June 8, until 5 a.m., Monday, June 11. This closure means the eastbound on/off ramps at Riverside Ave. and Hiawatha Ave. also will be closed.
 - **Official detour:** A posted detour will direct motorists to use northbound I-35W, eastbound Highway 36 and southbound I-35E to access eastbound I-94.
- **Traveling from Minneapolis, eastbound on I-94 from June 11-14:** Motorists will experience delays on eastbound I-94 in Minneapolis between Highway 55/Hiawatha Avenue and Highway 280 as the left lane closes at 5 a.m. Monday, June 11. Motorists on eastbound I-94, and those on northbound I-35W trying to access eastbound I-94 should expect delays in the area throughout the week and take alternate routes if possible. The lane closure will remain in place through late Thursday, June 14.
- **Visitors to campus should plan alternate routes to campus.** On-campus traffic may be higher throughout the construction period. Please use caution when driving and walking in the area, and follow the signs, rules and laws of the road. Pedestrians should cross only at marked crosswalks.

It is impossible to predict how heavy traffic might be, or to offer a specific amount of extra time required to get to campus. In addition, ramp and road closures may change with little or no notice. Please visit the City of Minneapolis and MnDOT websites for updated traffic information. Please use the following resources to help you plan accordingly:

- **City of Minneapolis:** Details on the City of Minneapolis Riverside Ave. project, including detour maps, are available at http://www.minneapolismn.gov/cip/all/cip_riverside_index.
- **MnDOT:** For updates on information related to the MnDOT I-94 project, visit <http://www.dot.state.mn.us/metro/projects/i94resurfacing/phase2.html>. In addition, visit <http://www.511mn.org/> for live-time maps and tools to help you make informed, real-time decisions about departure times and routes.
- **Public Transportation:** Information on the impacts to public transportation – including buses, Hour Cars, light rail, and park and ride – are available on the Metro Transit website and include an interactive transit map at <http://metrotransit.org/rail-construction.aspx>

Construction Season Safety Tips & Reminders:

- Only cross the streets at intersections and cross walks.
- Look both ways before crossing the street. Vehicles unfamiliar to campus may be traveling through.
- Be aware of vehicles accidentally traveling the wrong direction on one-way streets.
- Slow down. Be aware of construction workers, bicyclists, and pedestrians that may be in unexpected areas due to the construction.
- Pay close attention to Minneapolis parking restrictions and changes throughout campus to avoid tickets/towing. Parking is available for Augsburg Faculty, Staff, Students, and Visitors in any of the Augsburg parking lots. Permits are still required in any reserved, metered, handicap, or similar spaces on campus.
- Inform your guests and visitors of the construction around campus and assist them in preparing for their visit using the materials provided <http://www.augsburg.edu/about/map.html>
