

1098-T Explanation

What information is in the various boxes on the 1098-T Form?

Box 1 – This box shows the total amount of payments and aid disbursements, including grant and scholarship amounts (see Box 5), up to the amount billed in qualified tuition & fees in 2018. It may also contain payments made in 2018 toward spring 2019 tuition and fees (see Box 7).

Box 2 – This box is blank; we no longer report qualified tuition & fees in Box 2, as we have in previous years (see Box 3).

Box 3 – This box is checked because, per federal regulations, we have changed our reporting methods for 2018. We now report payments made (Box 1) instead of tuition billed (Box 2).

Box 4 – This box shows any reduction in 2017 tuition and fees made during 2018.

Box 5 – This box shows the total of all scholarships or grants administered and processed by the eligible educational institution. The amount of scholarships or grants for the calendar year (including those not reported by the institution) may reduce the amount of the education credit you claim for the year.

Box 6 - This box contains any reduction to the amounts of scholarships or grants that were reported in a prior year.

Box 7 – This is checked if the amount in Box 1 includes payments made toward an academic period beginning between January and March 2019 (the spring semester).

Box 8- This is checked if the student was at least a half-time student during the academic period that began in 2018.

Box 9 - This is checked if the student was enrolled in a program or programs leading to a graduate-level degree, graduate-level certificate or other recognized graduate-level educational credential.

Box 10 – This box shows any tuition reimbursements or refunds made by an insurer. This is not applicable at Augsburg.
