Student Loan Origination Fee Calculator

Terminology

- ☐ Origination Fee: The loan fee you are charged for borrowing a loan. Most federal student loans have loan fees that are a percentage of the total loan amount. The money you receive will be less than the amount you actually borrow.
- ☐ Gross: The total loan you borrow (before origination fees).
- ☐ Net: The amount that will be applied/dispensed to your student account.

When submitting your loan request, you will enter the **net** amount. Use the calculator below to help determine the amount you will borrow and what your fees will be.

7) Loan Origination Fee Calculator

Federal Direct first applied to a student's account October 1st 2019– October 1st 2020: **1.059% Fee**

Net Amount		Gross Amount	Total Fee
Gross Amount		Net Amount	Total Fee
