#### I. Instructions

Your careful attention to completing this evaluation form is very much appreciated. Evaluation is a critical part of a student's professional education. It provides an important opportunity for feedback, growth, discussion and educational planning.

For each of the following areas of competence, please indicate which level of performance the student has achieved (unsatisfactory, basic, proficient, or distinguished) by marking in the appropriate box. Each level of performance assumes competency in the previous level(s) of performance. For example, "proficient" assumes that the student has demonstrated competence at the basic level of performance. Likewise, "distinguished" assumes competence at both the basic and proficient levels of performance.
