

2016 Summer Research Scholars Program

Cornell University

Geneva Campus

Cornell University's New York State Agricultural Experiment Station in Geneva, New York offers a [Summer Research Scholars Program](http://scholars.pppmb.cals.cornell.edu/) for undergraduate students to carry-out their own independent research projects in one of four disciplines: Entomology, Food Science, Horticulture, and Plant Pathology & Plant-Microbe Biology.

Student interns will work with faculty, their graduate students and postdocs on research projects focused on specialty crops that can be laboratory and/or field-based.

Apply online at:

<http://scholars.pppmb.cals.cornell.edu/>

Applications due: 12 February 2016

Applicants notified of acceptance by mid-March 2016

Specifics

- Nine week internships to conduct research in a faculty program at Cornell's Geneva Experiment Station
- Gain research experience and learn about the research and extension conducted at Cornell
- Additional programs and field trips will be offered
- Benefits/support included: \$4,500 stipend, housing, and assistance with transportation costs
- Program starts on June 1, 2016 (May 31 for travel) and runs through July 29, 2016 (July 30 for travel)

Eligibility

- Must be a U.S. citizen or permanent resident at least 18 years of age by May 31, 2016
- Must have completed two, and preferably three, years of college level study in one of the life sciences by June 2016
